DETAILED ACTION

This is in response to the communication filed on December 21, 2001. Claims 1-16 are currently pending.

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The information disclosure statements (IDSs) submitted on 12/21/01 and 03/10/03 are in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statements are being considered by the examiner. Copies of PTO-1449s are attached hereto.
3. The abstract of the disclosure is objected to because it should be limited to one paragraph. Correction is required. See MPEP § 608.01(b).

Specification

4. The disclosure is objected to because of the following informalities:
Page 3, line 7, "as specified in claim 1" should be removed;
Page 4, line 22, "do" should be removed;
Page 4, line 32, "as set out in claim 5" should be removed;
Page 4, line 33, "as set out in claim 6" should be removed;

Page 4, line 34, "as set out in claim 9" should be removed;

Page 6, line 3, "upto" should be "up to"; and

Page 6, line 5, "upto" should be "up to".

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As for claim 1 c), the examiner is unable to determine what the applicant is claiming in the following language:

"whereby a payment token is associated with each acknowledgement code or with a number of acknowledgement codes" because in f) the applicant claims there is an accumulation of tokens associated with the acknowledgement codes".

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

6. Claims 10-12 and 15 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The applicant is claiming a computer program, without the computer-readable medium needed to realize the computer program's functionality.

Conclusion

7. The examiner has cited prior art of interest, for example:

1) Gliner et al. (Patent Number 6,427,140), which disclose systems and methods for secure transaction management and electronic rights protection.

2) Patterson (Patent Number 6,389,541), which discloses regulating access to digital content.

3) Stefik et al. (Patent Number 6,236,971), which disclose a system for controlling the distribution and use of digital works using digital tickets.

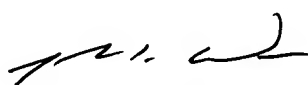

8. Claims 1-9, 13-14 and 16 would be allowable if rewritten to overcome the rejection under 35 U.S.C. § 112 and to include all of the limitations of the base claim and any intervening claims. As allowable subject matter has been indicated, applicant's response must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 C.F.R. § 1.111(b) and section 707.074(a) of the M.P.E.P.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Freda Nelson whose telephone number is (703) 305-0261. The examiner can normally be reached on Monday - Friday.
